PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 2 years of experience building scalable, responsive, and high-performance web applications. Proficient in React.js, Redux, TypeScript, and REST API integration. Demonstrated track record of improving page-load performance, reducing component re-renders, and delivering reusable UI component libraries in fast-paced production environments.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries: React.js, Redux, Tailwind CSS
React Concepts: React Hooks, Functional Components, Context API, Memoization, Code Splitting
State Management: Redux, Redux Toolkit, Component-Level State
APIs & Integration: REST API, Axios, Fetch API, Postman
Build & Deployment: Webpack, Node.js, npm, CI/CD, Vercel, Netlify
Tools: Git, GitHub, VS Code, Chrome DevTools, Responsive Design, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

React JS Developer Oct 2024 – Present
Appynitty Communications Pvt. Ltd., Nagpur

- Engineered and optimised 20+ responsive UI components, improving overall application maintainability and reducing average development cycle time.
- Integrated 15+ REST APIs to enable seamless data flow across multiple dashboards and feature modules.
- Boosted page-load performance by **18%** through strategic UI optimisation, lazy loading, and efficient rendering practices.
- Eliminated unnecessary component re-renders by **30%** by applying memoization (`React.memo`, `useMemo`, `useCallback`) and restructuring state management logic.

Full Stack Developer Intern 6 Months
ARC Technologies and Institutions, Nagpur

- Developed 10+ modular, reusable React components that improved development velocity and enforced consistent UI patterns across the application.
- Implemented Redux for centralised state management, reducing prop-drilling occurrences by **40%** and simplifying data flow.
- Enhanced mobile responsiveness across all device breakpoints, improving Lighthouse mobile performance score by **15%**.

PROJECTS

Rewards CMS Platform

- Architected a merchant-facing CMS using React.js and REST APIs to manage offers, promotions, and reward campaigns.
- Built a reusable component library and optimised API call patterns, achieving faster dashboard rendering and reduced redundant network requests.
- Delivered dynamic content updates and responsive layouts, significantly improving end-user experience across devices.

DMA Monitoring System

- Developed real-time dashboards to monitor employee activity and validate QR-based workflows, improving operational visibility.
- Implemented interactive data visualisations with responsive UI components, enabling faster decision-making for operations teams.
- Optimised rendering pipeline for dashboard-heavy views, resulting in smoother interactions and reduced load times.

EDUCATION

B.Tech in Electrical Engineering 2020 – 2024
KDK College of Engineering, Nagpur

Higher Secondary Certificate (Science) 2018 – 2020
Adarsh Sanskar Vidyalaya Jr. College, Nagpur

CERTIFICATIONS

- Applied Cloud Computing for Full Stack Web Development – Tech Saksham
- Frontend Development Internship – ARC Technologies
