PROFESSIONAL SUMMARY

Web Developer with 2 years of professional experience building, maintaining and optimising responsive websites, CMS interfaces and business web platforms using React.js, JavaScript (ES6+), TypeScript, HTML5 and CSS3. Proven track record of improving page-load speed, mobile responsiveness and rendering efficiency, integrating REST APIs, and troubleshooting UI, form and performance issues. Experienced in collaborating with product, design and business teams in Agile environments to ship fast, maintainable, user-friendly web experiences. Actively building skills in GA4, Google Tag Manager, conversion tracking and technical SEO to support data-driven website performance and conversions.

CORE SKILLS

Web Development: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, shadcn/ui, responsive design, reusable components, website architecture

Performance Optimisation: Page-load optimisation, rendering optimisation, code efficiency, mobile responsiveness, Lighthouse audits, Chrome DevTools

Websites & Digital Platforms: CMS interfaces, forms and validation (React Hook Form, Zod), dashboards (Recharts), content and media management UI, REST API integration, TanStack Query

Troubleshooting & Maintenance: Debugging, cross-browser and cross-device testing, fixing UI and form issues, API error handling, JWT authentication and role-based access control (RBAC)

Analytics & SEO (Currently Learning): Google Analytics 4 (GA4), Google Tag Manager, conversion tracking, tracking pixels, technical SEO fundamentals (site speed, mobile-friendliness, crawlability)

Backend & State: Node.js REST APIs, Redux, Redux Toolkit, integration with .NET and Node.js backends

Tools & Delivery: Git, GitHub, Jira, VS Code, Postman, Webpack, npm, CI/CD, Jenkins, Docker (fundamentals), Vercel, Netlify

Testing: Jest

PROFESSIONAL EXPERIENCE

React JS Developer | Appynitty Communications Pvt. Ltd., Nagpur

Oct 2024 - Present

- Built and optimised 20+ responsive UI components, improving page-load time by 18% across the platform.
- Reduced unnecessary re-renders by 30% by optimising React rendering cycles and component behaviour, improving UI responsiveness and code efficiency.
- Integrated 15+ REST APIs to power data-driven web workflows, improving data flow and reducing response latency by 25%.
- Developed business dashboards, forms and web interfaces with responsive layouts, validation and maintainable, reusable components.
- Diagnosed and fixed UI, form and performance issues using Chrome DevTools, and validated responsive behaviour across screen sizes and devices.
- Collaborated with cross-functional team members in an Agile workflow using Git and Jira to deliver updates reliably.

Full Stack Developer Intern | ARC Technologies and Institutions, Nagpur

6 Months

- Developed 10+ modular React components, improving team development speed by 20%.
- Enhanced cross-device responsiveness, increasing mobile Lighthouse performance scores by 15%.
- Implemented Redux for structured state management, reducing prop-drilling issues by 40%.

SELECTED PROJECTS

Rewards CMS Platform – Developed a merchant CMS web platform for managing offers and rewards with real-time updates; integrated REST APIs and optimised UI components for a faster, smoother user experience.

DMA Monitoring System – Built real-time dashboards for employee activity tracking and QR-based validation workflows, improving operational visibility and dashboard responsiveness.

EDUCATION

B.Tech in Electrical Engineering | KDK College of Engineering, Nagpur

2020 - 2024

CERTIFICATIONS

- Applied Cloud Computing for Full Stack Web Development – Tech Saksham
- Frontend Development Internship – ARC Technologies
